Palliative Care Service

Our Palliative Care service is designed to support individuals living with life-limiting or life-threatening conditions, focusing on comfort, dignity, and quality of life.

Our trained and compassionate healthcare professionals work closely with service users, families, GPs, district nurses, hospices, and multidisciplinary teams to ensure care is coordinated, responsive, and tailored to individual wishes and care plans.

Our Services Include

- Pain and symptom management support in line with clinical guidance
- Personal care, including assistance with washing, dressing, continence, and mobility
- Support with nutrition, hydration, and medication prompting
- End-of-life care delivered with sensitivity, respect, and dignity
